

TOMORROW'S CHALLENGES IN TODAY'S BUILDINGS

**PICK A FUTURE
TREND AND
SUGGEST ONE
DESIGN SOLUTION
THAT COULD BE THE
FIRST STEP
FORWARD**

**Closing
date 2nd
Nov 2017**

We are calling on all disciplines for design solutions to future trends.

How can buildings be designed to be future-proof and resilient against the trends that are on the horizon?

We are not looking for long essays - we want short answers!

Enter here

The more perceptive and innovative the solution, the better. It could relate to:

- Urbanisation and changing demographics.
- Climate change.
- New technologies.
- Health and wellbeing.
- Affordability.
- And more...

The winner will receive £500 worth of BSRIA membership, training or publications, and be published in Delta T magazine and on Designing Buildings Wiki.
